GAMBER JOHNSON companies

Gamber-Johnson is a global name known for providing industry-leading mounting solutions to support many, diverse industries, most notably the public sector, material handling, logistics, and enterprise. The GJ portfolio of product offerings has grown with strategic additions to our family of brands to support a broader offering.

From humble beginnings as a local wooden furniture manufacturer in Stevens Point, Wisconsin, Gamber-Johnson has developed into the **global go-to partner for equipment mounting products.**

This evolution from producing furniture in 1954 to becoming a 21st-century world leader in mounting equipment for electronics was a natural progression, fostered by a company culture of innovation and continuous improvement.

Today, Gamber-Johnson is still proudly “made in Wisconsin” and manufactures mounting components and systems for laptop and tablet computers, radios, light and siren controls, surveillance cameras, point-of-use kiosks, printers, keyboards and other devices — all meticulously designed to be rugged, reliable, and responsive.

Partnering with major technology manufacturers such as Dell, Getac, Panasonic, Samsung, and Zebra is key to this success. Gamber-Johnson is a trusted name in the industry; long known as the go-to partner for major rugged computer OEMs. With more than 25 patents and counting, the company continues to evolve, creating numerous jobs and meaningful opportunities for community stewardship.

As a pioneer in design innovation — receiving numerous awards and accolades as an industry leader — Gamber-Johnson has been the preferred choice of fleet managers for decades. Gamber-Johnson is a worldwide corporation with subsidiaries around the globe, including Precision Mounting Technologies (PMT) in Calgary. Currently, the company exports to more than 45 countries, with installations in thousands of fleets worldwide. Heroes in police, fire and emergency medical services rely on Gamber products every day in order to better protect and serve.

For these significant contributions to vital industries on a global scale, Gamber-Johnson has received numer-

ous accolades. These include the 2019 Wisconsin Manufacturer of the Year Award, in the Medium Category recognizing the company’s commitment to business excellence which makes a positive impact on the state of Wisconsin; the President’s “E” and “E” Star Awards, recognizing outstanding contributions and growth to U.S. exports; Wisconsin Governor’s Export Achievement Award, which honors the company’s work in furthering Wisconsin’s global economy; and the Cygnus Innovation Award, acknowledging that the company is at the cutting edge of emerging technologies. Gamber-Johnson has been nominated as Wisconsin Manufacturer of the Year eight times and also received the J.P. Leggett Innovator Award from Leggett & Platt, in addition to being named a “Workplace of Distinction” by Corporate Report Wisconsin.

Gamber-Johnson’s dedication to producing products that are rugged, reliable, and responsive is unparalleled. The Gamber-Johnson name has become synonymous with high quality, rugged products that can withstand even the most extreme situations. These products are guaranteed and reliable, hand tested for perfect performance every single time. With a strong focus on customer service, the Gamber-Johnson brand is responsive: offering custom-designed solutions, lightning-fast production and shipping, and working directly with technology partners to ensure the optimum fit, every time.

From the company’s local origins to its modern-day global impact, Gamber-Johnson has continued pursuing its mission — supporting our heroes and saving the world through a laser-like focus on innovation

MOUNTING SOLUTIONS FOR EVERY PUBLIC SAFETY VEHICLE

Secure your tablets and equipment with our superior mounting solutions, for ultimate peace of mind. We offer a wide range of turnkey solutions that are configurable for your public safety vehicle's specific make and model. Our ergonomic solutions enhance driver efficiency, reduce installation time, speed up operations, and improve overall workplace safety. To narrow down the best solution for your fleet begin by asking yourself these four important questions:

01

WHAT DEVICE IS BEING MOUNTED?

Identifying your device ensures that you get the correct dock or cradle to support your specific need and desired connectivity.

02

WHAT MODEL VEHICLE IS THE DEVICE BEING MOUNTED TO?

Knowing the make and model of your vehicle will allow us to recommend the best location and corresponding product needed to mount your device.

03

DO YOU WANT A PEDESTAL OR CONSOLE SYSTEM?

Knowing how much vehicle space you have and what equipment needs to be mounted helps determine which system is best for you. Pedestal systems save space in a vehicle and work great in vans and trucks with a small console area. Console systems are designed for vehicles that need to mount multiple radios and equipment within easy reach of the driver.

04

WHAT ACCESSORIES ARE BEING MOUNTED?

Understanding your accessory needs will allow us to build the best enterprise solution for your team.

PEDESTAL SYSTEMS

SPACE SAVING MOUNTING SOLUTIONS FOR YOUR VEHICLE

Gamber-Johnson offers a full line of pedestal mounting hardware for vehicles as a rugged, space-saving solution. The pedestal system is composed of three parts: a vehicle base, a lower tube that attaches to the base, and an upper pole that acts as a platform to mount the device or a motion attachment. Accessories can also be added to the pedestal system - such as a support brace or rack-to-post platform - making it more robust.

Pedestal systems are an ideal option for vans and trucks that have small console areas, which do not allow adequate space for mounting. With an innovative design and sturdy construction, these products offer maximum reliability, but save on space.

MOTION ATTACHMENTS

**SWIVEL, TILT, OR SLIDE YOUR DEVICE INTO THE BEST
POSITION FOR YOU**

Motion attachments give the user the ability to place the computer in precisely the desired location, at any time. These attachments connect the electronic device and the platform on which it is mounted. Gamber-Johnson motion attachments work to create the ideal positioning for each client's individual needs, bringing the device up to 12" (30.48 cm) closer to the user. This increased movement and positioning is ideal for use in public safety vehicles, enterprise fleets or even material handling applications.

All of our motion attachment solutions are designed to make the mobile office as comfortable as possible. From articulating arms to low swivel attachments, each device is easy to use and has a Limited Lifetime Warranty to give ultimate peace of mind.

BUILDING SOLUTIONS WITH ZIRKONA

A detailed photograph of the Zirkona assembly components. It shows a black device plate mounted on a cylindrical joiner, which is attached to a long, thin extension. The extension is mounted on a base plate. Blue lines with circular endpoints point from the text descriptions to the corresponding parts of the assembly.

DEVICE PLATE

Available in several mounting designs for unique device adaption, the device plate securely holds your light-weight device in place to complete the Zirkona solution.

JOINER

Our unique encapsulated joiner allows users to rotate their small, lightweight devices easily and effortlessly. Available in two styles (traditional and two-down) and three different sizes to give users increased flexibility for a variety of payloads.

EXTENSION

Extensions and adapters allow users to build the most desired solution for their needs. Available in a variety of extension lengths and configurations these pieces of the Zirkona product line are the key to customizability.

BASE PLATE

Our wide variety of base plates gives your Zirkona solution the structural integrity it needs to withstand even the most extreme situations.

A photograph of a Zirkona device mounted in a vehicle's center console. The device is a smartphone displaying a colorful, abstract pattern. The Zirkona assembly is mounted on a base plate, and the entire unit is positioned in front of the vehicle's dashboard and air vents.

Choose from one of our pre-configured solution or start with the base and build something truly one-of-a kind for your specific need.

ZIRKONA SALES CASE

Ensure you have all the most popular Zirkona components on hand to create your own customizable solution for any opportunity that comes your way. This case (7160-1200) includes 22 individual Zirkona components to mix, match and build.

*Gamber-Johnson warrants to the reseller and the original end user of any Gamber-Johnson product that it will be free from defects in materials and workmanship for the warranty time period. Any failure of any Gamber-Johnson product that is due to intentional misuse or damage, cosmetic wear, theft, fire or natural disaster is not covered by this warranty.

The remedies for a defect in material or workmanship are limited to repair or replacement of any non-conforming product. Gamber-Johnson will repair or replace, without charge, any Gamber-Johnson product that does not conform to its warranty only if a Reseller or an original end user gives us notice of a defect in material or workmanship within the warranty time period stated below:

Mounting Systems (non-electronic products) — All non-electronic products purchased after Dec. 31st, 2009 are protected by Gamber-Johnson's limited lifetime warranty. For any warranty related issues of products purchased prior to Dec. 31st 2009, please contact your Gamber-Johnson's authorized reseller. All Zirkona products come with a standard one-year product warranty.

Specific 3rd Party Supplied Products — For all products purchased through Gamber-Johnson that are supplied from a 3rd party company (i.e. iKey, Brother, Lind Electronics, AFS, etc.) are warranted by the specific manufacturer of that product. Please see individual specifications on these products for further warranty information.

Mobile Docking Stations & Electronic Products — Warranty time period (from date of original factory shipment) for printed circuit boards, docking connectors, electronic components may vary. Please see individual specifications on these products for further warranty information.

Any failure of any Gamber-Johnson product that is due to damage or misuse, such as excessive force, improper installation, cosmetic wear, exposure to liquid spills, moisture or application of power in excess of specified rating theft, fire or natural disaster is not covered by this warranty. The warranty is void on electronic products if the warranty label is removed or altered.

GAMBER-JOHNSON WILL NOT BE RESPONSIBLE FOR ANY INCIDENTAL, CONSEQUENTIAL (INCLUDING LOSS OF BUSINESS OR PROFITS) OR PUNITIVE DAMAGES DUE TO FAILURE OF A GAMBER-JOHNSON PRODUCT. INCIDENTAL, CONSEQUENTIAL AND PUNITIVE DAMAGES ARE EXCLUDED FROM THIS LIMITED WARRANTY. THE FOREGOING WARRANTY IS A LIMITED WARRANTY. THERE ARE NO OTHER WARRANTIES, EXPRESS OR IMPLIED, WHICH EXTEND BEYOND THE DESCRIPTION OF THE WARRANTIES ON THE FACE HEREOF INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF FITNESS AND MERCHANTABILITY.
