PUSH BUMPER ELITEXD

The Push Bumper EliteXD is made of heavy duty 4 gauge HRPO steel uprights to safely push another vehicle. It features 2-3/4" wide heavy-duty rubber strips on the uprights and a removable full punch plate grille. Uprights are pre-drilled for the addition of EliteXD Wing Wraps and PIT Bars. Pre-drilled holes provide side-mounting points for popular LED Lights. The Push Bumper EliteXD also features an extra wide 4-5/8" stylized and pre-drilled center cross-plate, a significant surface area for mounting of LED lights or speakers. All exposed fasteners are black plated stainless for protection against rust. The Push Bumper EliteXD design is vehicle specific for a clean finished look.
